

## Invitation to contribute to the SJI special issue 2020

Dear Colleague!

In 2020, the Scandinavian Society for Immunology (SSI) celebrates its 50:th anniversary at the 46:th annual SSI meeting in Aarhus, Denmark, October 13-16.

In conjunction with the celebration, the *Scandinavian Journal of Immunology* will dedicate its October issue to review articles from **Scandinavian immunologists**.

Scandinavian in this respect is defined by location and affiliation and not by citizenship.

It would be a great honor if you would like to contribute to this issue with a mini review or a longer review! If you are interested, please let me know, as soon as convenient, the **title of the review** and a **list of coauthors** for your article.

Instructions for mini reviews and regular reviews can be found here:

<https://onlinelibrary.wiley.com/page/journal/13653083/homepage/forauthors.html>

Deadline for your contribution is **May 1, 2020**. Of course, all contributions will undergo full peer reviewed according to our usual routines.

Looking forward to hearing from you!

Best regards,

Petter Höglund  
Editor-in-Chief, *Scandinavian Journal of Immunology*
